PREFACE

This is the Second issue of the "Statistical Hand Book of West Pakistan". It contains summary of the available economic and social statistics of West Pakistan. It covers a large variety of subjects including population; agriculture; health; communications; industries; fuel and power; elections, public finance; economic development; transportation; shipping etc. etc. The scope of the present edition has been widened and many new tables on various sectors of economy have been added. In addition, a table for East and West Pakistan has been included giving comparative data on different economic and social fields. It is hoped that these additions will enhance the utility of the publication.

It is designed to serve as a handy volume for statistical references. The sources from which the data has been compiled are indicated under each Table. For more detailed information, references may be made to the original source.

The data has been compiled on Provincial and Divisional basis, and, wherever

possible, information has also been given on district basis.

I am grateful to the various Central, Provincial and Semi-autonomous agencies who have supplied information for this publication. I am also thankful to Mr. M. Afzal, Director, Bureau of Statistics Government of West Pakistan and his staff for undertaking the publication of such a useful booklet.

Any comments and suggestions for the improvement of this publication will be most welcome.

S. I. HAQUE,

AREA AND POPULATION

Note :—Some changes have been made in the Administrative areas of some of theDistricts of West Pakistan. But adjustments for these changes in Population figures for 1951 have not been made in Table No. 5. "Population of Urban Localities by Sex, West Pakistan, 1951 and 1961" of Census Bulletin, No. 2 by the Census Authorities. However, such adjustments have been made, where necessary, by the Bureau in the light of the Gazette Notifications published by the Government from time to time. Table 3 contains the comparative data as given by the Census Authorities and as adjusted by the Bureaau and in all the subsequent Tables adjusted data has been used.

HOUSING

Note :—(*i*) The figures included in this Section represent the total count of houses and structures in Urban Areas and estimates prepared on the basis of a 10% Sample of total count for Rural Areas.

(*ii*) Population figures given in this Section were collected in September-October, 1960 on household basis as part of the Housing Census and may be treated as estimates only. These figures are not strictly comparable with the Population figures which were obtained from actual enumeration of each individual during the Population Census in January, 1961.

(*iii*) Tables given in this Section exclude the data for Tribal Areas of West Pakistan where Housing Census was not conducted.
